## PROFESSIONAL PROFILE

I'm a Full-Stack Web Developer. I'm responsible for the design and construction of websites. I ensure that sites meet user expectations by ensuring they look good, run smoothly and offer easy access points with no loading issues between pages or error messages.

## WORK EXPERIENCE

### Web Developer

Jul 2022 - Aug 2022

I've made the Asset Management System website for Western Railway using HTML, CSS, Javascript, Bootstrap, PHP and MYSQL. So Basically, In this website the railway users will fill an inspection form and then they will get the report of that inspection form.
